## PAPER PLATE EASTER EGG WREATH

## Paper Plate Easter Egg Wreath Instructions

Craft by: [iheartcraftythings.com](http://iheartcraftythings.com)

### Supplies:

- Easter Egg Wreath Template, printed on white cardstock
- Pink patterned scrapbook paper (optional)
- Crayons
- Watercolors (We love liquid watercolors!)
- Paintbrush
- White yarn or string
- 1/2-inch pink craft pom
- Googly Eyes
- Markers (optional)
- Scissors
- Glue stick
- Tacky Glue
- Ribbon
- Glue Dots or hot glue gun

### Instructions:

**Step 1:** Print off the Easter egg wreath template on white cardstock.

**Step 2:** Use crayons to make lines and designs in each of the Easter eggs on the template. Note: We only used 13 eggs for our wreath but there are a few extras just in case.

**Step 3:** Paint the decorated Easter eggs with watercolors. Set them aside to let the watercolor paint dry completely.

### Alternative for Bunny features:

If you are making this craft in a classroom setting and don't have the option for using yarn, a pink craft pom and googly eyes (or want to make the craft simpler for children), you can have them draw on the bunny features with crayons or markers.

**Step 4:** Once the watercolors are finished drying, cut out each of the Easter eggs. Set them aside until step 9.

**Step 5:** Cut out each of the bunny pieces of the template. Color the inside ears section with markers or crayons, or use the pieces as a template to cut them out of pink patterned scrapbook paper.

**Step 6:** Assemble the bunny together. Glue the ears at the top of the bunny face. If wanted, fold one of the ears down to look like a floppy bunny ear.

**Step 7:** Cut three pieces of white yarn at equal lengths for whiskers. Glue them on the center of your bunny face with Tacky Glue. Then glue a pink craft pom in the center of the whiskers. Add googly eyes to your bunny.

**Step 8:** Cut the center circle out of a paper plate to make the base for your wreath.

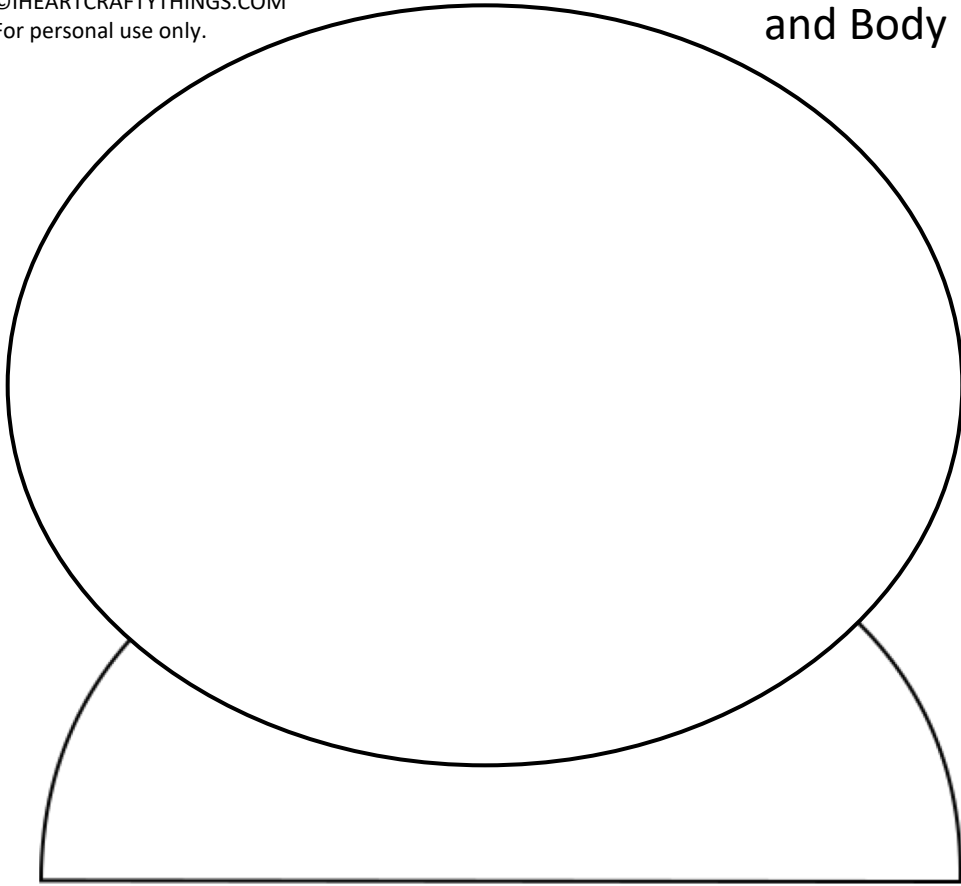

**Step 9:** Glue the colorful Easter eggs around the perimeter of the paper plate wreath, overlapping each of the eggs slightly with one another.

**Step 10:** Add glue on the bottom of your paper bunny and glue it at the top of the paper plate wreath behind the eggs. Use a marker or crayons to draw lines on your bunny paws and then glue them on the front of the wreath.

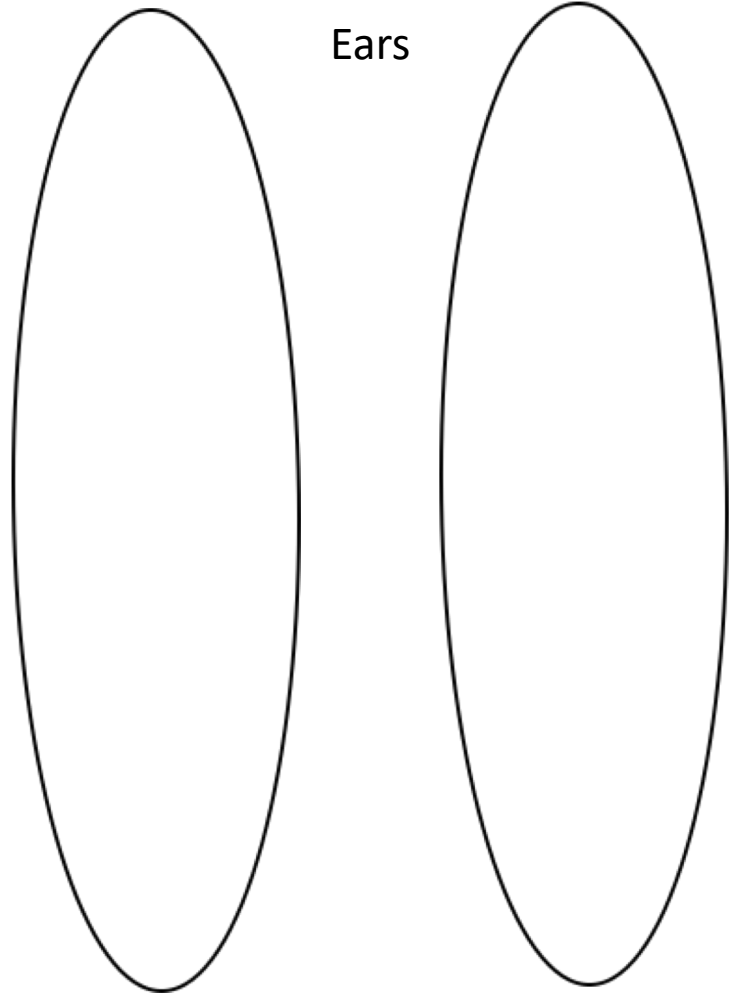

**Step 11:** Cut off a length of ribbon, tie it into a bow and attach it at the top of your wreath with a Glue Dot or a dot of hot glue. You can also choose to omit the bow on the wreath.
